

Guide to Information resources in Scandinavia

It can be difficult to verify online information resources in Scandinavia if you are not familiar with the society and language. Below you can find a couple of online resources which leads you to newspaper articles, books and other materials that can be useful for you in your information seeking.

Please note that the resources not necessarily are in English. Knowledge of the language is required to some of the resources (the description will tell you).

Please note, if you would like to borrow a book from a Scandinavian Library you will have to talk to your local University library or the public library about interlibrary loans.

Interlibrary loan at Brandel Library, North Park University:

<http://www.northpark.edu/Brandel-Library/Interlibrary-Loan/Policies.aspx>

Denmark:
