

My name is Jorge L. Garcia I am the Church planting Pastor for a Hispanic Church in Chula Vista CA.

We have an internship opportunity for a bilingual youth worker (Spanish/English) here in Chula Vista. I can be contacted at 619.454.2182 and I can explain with more detail what is the need/opportunity.

Our church is just started so funds are not in abundance, but I am sure God will provide. Right now the plan is not inked, I can think at least housing and some expenses might be included; This is what I have in mind. Our church planting team is composed of adults who's age range is between late 30's early 40's we have not one in their early 20's ... I will be trying to reach College aged youth. Our temporary facility is in the YMCA youth center and we are two blocks from South Western College (a very large community college with a very high Hispanic attendance) Chula Vista has a 50% Hispanic Population.

So the work is more like a missionary for college students... not really youth in the Church, the goal will be reaching our Hispanic youth for Christ (18-24,26), disciple them and help as the youth services get some kind of form.
