Course Description:

This course will examine the various planned giving vehicles and gift asset types available to individuals including: charitable gift annuities, charitable remainder unitrusts, bargain sale, outright securities, real-estate, or other appreciated property. Planned and major gifts fundraising will be explored within the context of the estate planning and philanthropic major giving options for individuals. The course will also concentrate on the marketing aspects of a planned and major gift program (e.g., donor motivation, targeting prospects, volunteer roles, and program planning).

Introductory Comments:

Gifts from individuals lead the way as the most significant share of the philanthropic dollars given to nonprofit organizations. For many organizations, major and planned (or estate) gifts typically go beyond the so called 80-20, rule (in which 80% of contributions comes from 20% of the donor population) because a very small handful of gifts can set the pace for most giving programs. This course will concentrate on planned giving from individuals. We will consider the technical descriptions of planned giving vehicles along with marketing, targeting prospects, volunteer roles, and program planning. Role-playing exercises will help the students develop relationship-building skills as they work toward success in practice as well as theory.

Assignment Grading Policies:

Class attendance and participation will be worth 100 points. All assignments are due on the dates indicated. Four assignments will be worth 15 points and three will be worth 30 points (150 points total). Late assignments will drop 5 points each week. Assignments will not receive any points if turned in after the final class. The final take home examination will be worth 150 points.

Student Responsibilities:

- Students are expected to engage in active and informed participation in class discussion.
- As adult learners, you are expected to manage your own learning process. The extent to which the class is valuable to you will depend much upon your level of personal involvement in learning.
- Students are expected to complete all assignments. The collection of assignments relates to the theory and practice of fundraising.
- Students are expected to complete a take-home final exam that will be handed out during the last hour of the next to the last class, which will cover the entire curriculum. It's "open book," but not a group project!

Instructor Responsibilities:

As your instructor, I will:

- Provide practical work-place useful information on relevant resources in the field.
- Read and critically assess assignments and provide feedback within 7-10 days of receipt
- Facilitate a participant-centered course experience, focused on student learning
- Respond to all student email within 48 hours or receipt (target is 24 hours)
- Respond to all student phone calls within 48 hours (target is 24 hours)

ASSIGNMENT SPECIFICATIONS

Overview:

Assignments consist of readings, student-student interaction with case scenarios, written projects and research on Moodle site. Due dates are indicated in the Schedule of Weekly Assignments. All assignments are due before the start of the weekly class session.

RESEARCH REPORT

Assignment Specifications:

Look carefully at the copy of a research report on a fictitious individual that posted on Moodle. What data might be relevant for a planned giving prospects? What data might be useless? What data might be further needed to successfully work with the prospect? Finally, write an analysis

paragraph that summarizes the situation as if it will be read by the fundraiser about ready to make a call on this prospect. Post to Forum by Friday and comment on others postings by end-of-day Monday. (15 points).

POLICY STATEMENTS

Academic Honesty

In keeping with our Christian heritage and commitment, North Park University and the School of Business and Nonprofit Management are committed to the highest possible ethical and moral standards. Just as we will constantly strive to live up to these high standards, we expect our students to do the same. To that end, cheating of any sort will not be tolerated. Students who are discovered cheating are subject to discipline up to and including failure of a course and expulsion.

Our definition of cheating includes but is not limited to:

1. Plagiarism – the use of another’s work as one’s own without giving credit to the individual. This includes using materials from the internet.
2. Copying another’s answers on an examination.
3. Deliberately allowing another to copy one’s answers or work.
4. Signing an attendance roster for another who is not present.

In the special instance of group work, the instructor will make clear his/her expectations with respect to individual vs. collaborative work. A violation of these expectations may be considered cheating as well.

For further information on this subject you may refer to the Academic Dishonesty section of the University’s online catalog.

In conclusion, it is our mission to prepare each student for a life of significance and service. Honesty and ethical behavior are the foundation upon which such lives are built. We therefore expect the highest standards of each student in this regard.

Attendance Policy for Graduate Courses

The graduate courses in the SBNM are all 7 weeks in length. Missing one class session is allowed without penalty as long as all readings and assignments are made up by the student within a reasonable time period (the following week). Failing to log into an online course site for an entire week is allowed, but a penalty may be applied at the instructor’s discretion. Missing a second class session is allowed only in unusual circumstances by prior arrangement with the instructor. Since this represents almost 30% of the engagement time for the course, the student runs the risk of receiving a lower overall grade for the class. Faculty are encouraged to drop the course grade by a full letter grade in this situation. A student who misses three classes (or the equivalent two weeks for an online class) will automatically fail the course, unless the student drops the course before the seventh week of class. Students who drop a course will be held responsible for tuition, based upon the current North Park University refund policy outlined in the University Catalog.

APA Requirement

The School of Business and Nonprofit Management (SBNM) has adopted the *Publication Manual of the American Psychological Association* (APA) as the standard and required format for all written assignments in SBNM courses.

Our goal in adopting the *APA Manual* is to enhance student learning by:

- 1) Improving student’s writing skills.
- 2) Standardizing the required format of all written assignments in all SBNM courses.
- 3) Emphasizing the importance of paper mechanics, grammatical constructs, and the necessity of proper citations.

4) Holding students accountable for high quality written work.

If you are unfamiliar with the requirements of the *APA Manual*, we recommend that you purchase the reference manual and/or that you consult one or more of the suggested resources as listed on the Student Resources section of the SBNM website. ***It is your responsibility to learn and ensure that all written work is formatted according to the standards of the APA Manual.***

Students with Disabilities

Students with disabilities who believe that they may need accommodations in this class are encouraged to contact your program's office (Business: 773-244-6270). Please do so as soon as possible to better ensure that such accommodations are implemented in a timely manner. For further information please review the following website: <http://www.northpark.edu/campus-Life-and-Services/disability-resources>
